Why Is Your Bet365 Account Restricted? There are several reasons why bet365 accounts can be restricted, including matched betting, unreasonable betting behaviour, GamStop (self-exclusion), and exploitation of bonuses. These are the most common reasons for the restriction of accounts with bet365.

By using a VPN, you can change your actual IP address to one that can access bet365. VPNs redirect your internet traffic through a private server, so it seems like you're in that country. For example, connecting to a UK server will provide you with a UK IP address.

The Bet365 mobile app can be downloaded from the Apple App Store or Google Play Store for iOS and Android 8 devices. Unlike the browser version of the mobile site, Bet365's app is designed specifically for gaming on the go – meaning you can wager whenever you want, wherever you are.

I have been using the Bet365 app since 2010, and it has improved massively over the years, with a better user experience and more features added.

Bet365 Sports Betting App Features

The bet365 app offers almost the same functionality as the desktop website. Users can bet on 40+ sports, place different bet types, live stream sports like horse racing and football, and use betting features like the bet builder, edit bet, and cash out.

Is There a Bet Builder On The App?

The bet365 app allows you to access their unique Bet Builder. It has been perfected by Bet365 by letting you pick from significantly more markets compared to competitors in the field. For example, these are just some of the football options you can add to your betslip:

Player to Score

Player Card

Corners

Half-Time/Full-Time

Double Chance

Winning Margin

Red Card in Match

Half With Most Goals

And many others. Combine your favourite markets to create a unique wager to win the way you want

want.

The bet builder really enhances the betting experience on the bet365 app, as it gives the app a customisable feel, allowing you to place the exact type of bet you want. Bet builder is ideal for football fans who wish to place a bet on specific events happening in a match.

Can you access Live Streaming on the mobile app?

The bet365 app allows users to watch the action as it unfolds, using Bet365's mobile app Live Streaming service. Users of the app must have some credit on their account balance in order to be able to stream matches.

The bet365 live streaming service really sets the bet365 app apart from the competition. No other betting app allows you to stream as many live events directly to your mobile phone. Sports lovers will adore the app purely for this reason. Live streaming is perfect for sports fans of many types, not just football (soccer). Horse racing and tennis fans will have a huge range of live events to stream, including tennis grand slams and daily horse racing.

Can you edit bets on the app?

Bet365 lets you Edit Bets with one of its latest updates. Have you ever watched your accumulator crumble because one bet you were hesitant to include in your selection let you down?

Use the Edit Bet feature to remedy your sports betting ailments and add, remove, or edit the stake on unsettled pre-game and in-play wagers.

The app makes the edit bet feature easy and streamlined to use. When I first downloaded the app in 2010, this feature didn't exist. An update in 2024 added the edit bet feature to the app, and for those that like to adjust and tinker with their selections, it makes it a great feature to have on the app.

Can you cash out on the bet365 app?

Bet365 mobile and app users can cash out their bets, where eligible.

To cash out bets on the app:

Place a bet

Open your betslip

Look for the Cash Out icon

Tap "Cash Out"

Claim your cash early

Cash Out is only available for select events. Keep an eye out for Bet365's Cash Out icon next to your favourite events to make sure you can settle bets early.

Users can set up Auto Cash Out to avoid missing better prices. Head to the betslip and tap the small cog next to Bet365's Cash Out icon, then create a new threshold at which you want the bet to settle automatically.

The app also features Partial Cash Out. Use this tool to cash out a portion of your bet rather than the whole sum of the wager. In doing so, the bet remains active but to a lesser extent, leaving you with some leftover cash and potential winnings if the bet comes good.

Cash out is another feature that is loved by many on the Bet365 app. Again, it wasn't added to the original app version and was brought in from 2012 onwards on the mobile site. Cash out is perfect for football fans that like to place accumulators.

I found the cash out easy to use and most users will find it a great addition. Advanced users are aware that their bets will lack value when cashed out, so those seeking maximum profits may want to read more into the cons of using cash out.

How To Register On The Bet365 App

Users can create a bet365 account via the mobile site or the app. The process is simple and requires just a few personal details.

Tap "Login" on the Bet365 mobile app homepage

Select "Join" on the Login page

Enter personal information as required

Create Bet365 login credentials

Tap "Join Bet365"

You now have a Bet365 account

By registering you also become eligible for 8 Bet365's welcome offer.

1. Click "Login" At The Top

First, open the Bet365 mobile app and tap "Login" in the top right-hand 8 corner of your screen. This should bring up a small window asking for your account credentials. You can ignore most 8 of this pop-up as you're yet to sign up.

2. Tap The "Join" button

Look to the top left-hand side of the 8 pop-up. There is a small "Join" button you need to tap. You'll next see a brand new section titled "Open 8 Account".

3. Fill out the form

In this area, you must provide the following information in this order:

Country of residence

Title & First/Last 8 Name

Date of Birth

Email Address

Contact Number

Home Address

Make sure each piece of personal information is correct as Bet365 will use these details 8 to verify your ID. Once you've completed this section, scroll down to the final part of the page. Here, you'll 8 customize your Bet365 Profile.

Enter a username and password, then pick a four-digit security number. Keep your security number somewhere safe 8 as you'll need to quote it when contacting customer support.

A little further down are a couple of boxes to tick. 8 This bit's pretty simple, just decide whether or not you want to receive marketing communication and be on your way.

Finally, 8 you may enter a Bonus Code. Check out Bet365's official website or social media accounts to see if a code 8 is available and type it into the box provided. If there are no codes listed, simply tick another box to 8 confirm you understand the terms and conditions, then tap "Join Bet365" at the very bottom of the page.

The bet365 app 8 registration process is easy. I found it easy, as will most users. We have compiled a separate guide on how 8 to register and verify your details on Bet365 for any users that might struggle.

Withdrawing is quick on the app, just like on the 8 main bookmaker website.

How To Bet on Bet365 App

There are three key steps to 8 carry out when betting on Bet365's mobile app. They are:

Pick a sport

Select a market

Choose your stake

That's more or less all 8 there is to it. On Bet365, login and view which sports are available. Each sport is packed with different markets 8 catered to the needs of almost any punter.

Upon choosing which market you want to bet on, add the bet to 8 your bet slip by tapping the odds. You'll know the bet has been added to your selection if the colour 8 of the box surrounding the price changes from grey to white.

Your bet slip will pop up above the footer menu 8 to allow for quickfire bets. Set your stake in the relevant box and tap "Place Bet" to confirm it.

Betting is 8 easy on the bet365 app. Novice users will be able to navigate through their chosen sports and find competitions and 8 events quickly. I found it very self explanatory. For any beginners that are struggling, there is a search box that 8 users will be happy to find what they want.

How To Install & use Bet365 On An Amazon Firestick or FireTV

The latest version of Bet365 can be pushed onto your Amazon Firestick or FireTV.

We loved the ability to do this, as it meant the live streaming service can be watched on our TV, not just my Android phone.

To add to the immersion of watching your favourite sports through Bet365's Live Streaming platform, you can log in on a Firestick.

To use the Bet365 app for Firestick, just connect your stick to the TV, then enter your login details. You should be able to bet on matches with the mobile app and watch those fixtures on the big screen thanks to the Firestick.

How To Add The Bet365 App To Firestick or FireTV

Download and install the bet365 app on your Android phone.

On your phone, download and install the "apps2fire" app.

Follow the apps2fire instructions to push the Bet365 app to your Firestick or FireTV device.

Open the Bet365 app on your Amazon Firestick and login.

Use the app using your Firestick/FireTV remote, or the Android Firestick remote on your phone.

Bet365 App Won't Show My Bets: Where To Find Them?

Your bet may have been moved to the 'Bet History' tab as it has already settled. You'll find any recently settled bets under the 'Settled' heading within the 'My Bets' department. Date ranges are available.

The wager may have moved from the 'Live Now' section to 'Unsettled' or 'Cash Out'. This may happen when there are no games currently in play for your wager.

Your wager might no longer be unavailable for Cash Out, meaning that it will not be present under the 'Cash Out' tab in the 'My Bets' area. Such a circumstance often occurs if the value of your bet is too low to be considered for early settlement.

Are There Any Promotions On The Bet365 Sports App?

Throughout the year, Bet365 offer specific promotions to app users. These promotions are limited and user-specific. Promotions will depend on the sport preferred, the activity on your account, and when you last placed a bet.

I found that I was offered a mobile only bonus when I hadn't placed a bet on the app for at least a week.

When I joined, I was given an app-specific bonus. As mentioned, these bonuses are not always available and are tailored to the usage of your account. I found them to be a great addition to the app.

Other bonuses you can get on the Bet365 mobile app include:

Bet Boost – Get better odds on selected football matches and runners for UK & Irish Horse Racing.

How Does The Bet365 App Compare To Desktop

Where else to start than the UI (User Interface)? It just feels clean and premium, with every feature you need available no matter which screen you view. While Bet365's desktop platform has

a lot going on, it doesn't quite make the most of the space afforded to it by the bigger screen. The Bet365 app more than uses every bit of room on your screen without feeling messy or overloaded.

It's also much easier to find Bet365's promotions on the mobile app. Not only can you get notifications direct to your mobile device, but the app has an entire button dedicated to "Offers" in the top left-hand corner of the home screen. This is in contrast to the desktop version of Bet365, which hides its Offers tab in the A-Z sports menu.

Most importantly, the Bet365 mobile app has more menus to access in one tap. At the bottom of your screen you've got these options:

- Home
- Sports
- In-Play
- My Bets
- Search

When you compare that to the desktop offering of:

- Sports
- In-Play
- My Bets

What we were discussing earlier about making the most of space becomes a little too clear. None of this is to say that Bet365's desktop website is a poor product (it's actually quite good), but the mobile app is, to be frank, just superior.

How Do I Set Up Touch ID For My Bet365 App?

You can enable touch ID for the Bet365 app.

1. Head To My Account > Preferences

Head to the 'My Account' area to enable Touch ID on your Bet365 account. You'll need to log in first, so make sure you have your account details saved to your device or written down.

The 'My Account' section is accessed by tapping on the small Profile icon in the top right-hand corner of the screen. It looks like the outline of a person enclosed in a circle. By tapping on it, Bet365 will transfer you to a new menu with various 'Account' options.

There are four headings in this area:

- Account
- Alerts
- My Offers
- Preferences

Select 'Preferences'.

2. Find The "Log In Using Touch ID" option

Among the options listed should be 'Log In Using Touch ID' (provided your device supports this feature). Flick the slider next to it to turn Touch ID on. You'll know Touch ID is active when the slider lights up in green.

3. Re-Start The App To Confirm

Close the Bet365 app, then reopen it. The bookie will then prompt you to place your thumb/finger on the Touch ID pad to verify your identity. This should only take a couple of seconds.

Once you've logged in via Touch ID you can continue enjoying all of the features available on the Bet365 app.

Remember, Bet365's Touch ID is only available on compatible mobile devices. If your device does not support Touch ID, Bet365 will allow you to use alternative login methods. These include using a passcode and Face ID.

It's also worth mentioning that although there is no Bet365 app for Windows 10 – or a Bet365 app for PC as a whole – right now, that may change in the future. For the time being, anyone that prefers using a desktop should check out the Bet365 website catered to PC.

On What Devices Can I Use The New Touch ID Login For The Bet365 App?

Failure to switch to the latest Bet365 app software may cause some issues. For example, you may find that the 8 Bet365 app not updating locks you out of your account or prevents you from accessing the app. This is because 8 the update may have fixed a security issue or rejigged an important piece of the software. Simply enter your login 8 details to begin playing again.

Apple (iOS – iPhone and iPad)

On Apple devices, you should open the App Store and tap 8 your profile icon. This will take you to a new section filled with all of your recently updated applications. Refresh 8 this page to see any apps that require an update. If Bet365 needs an update, it'll show up here. Alternatively, 8 feel free to search for Bet365 via the App Store and tap the 'Update' button. Your update should

commence immediately.

Android

Android 8 users can update the Bet365 app through the Google Play Store. Just open the Play Store and select the Profile 8 icon. Tap 'Manage Apps & Devices' as the Bet365 app will sit in this section if it's in need of 8 an update. Press 'Update' to begin updating the app.

In the past, many users asked the following question: why is the 8 Bet365 app not in Play Store?

The answer has always been one of these two:

Your country does not permit Bet365 8 to upload its app to the Google Play Store in that region.

Your software is out of date.

The former is a 8 known issue that has plagued Android-based bettors for a while. Bet365 has spent a large chunk of time absent from 8 the Play Store due to regulations preventing gambling products from being downloaded on the virtual mobile shop.

Why Won't The Bet365 8 App Open?

If the Bet365 app won't open on your device following an update, or if you run into any other 8 problems downloading an update for Bet365's mobile app, we recommend getting in touch with customer support on either the hardware 8 provider's side or Bet365 itself. More often than not, the app will return to normal once you restart it (force 8 it to close and then reopen it).

Who Is Best Suited To Use The Bet365 App?

Given Bet365's popularity among UK punters, 8 the platform is home to a wide variety of experience levels.

The fact of the matter is this: no one type 8 of bettor is best suited to Bet365's app. Whether you're a complete novice just trying to find your feet or 8 a veteran continuing to expand your bankroll, everyone will find something of use at Bet365.

That said, the younger generation (18-30 8 years old) will likely have an easier time getting familiar with Bet365's app. Many older punters grew up around the 8 in-house betting shop industry, whereas people born just before and during the boom of iPhones, Androids and tablets will be 8 more comfortable using the digital alternative.

Is The Bet365 App Highly Rated?

Bet365's mobile app boasts more than 140,000 reviews on the 8 iPhone App Store alone (4.75/5 stars) and is heralded by many as the no.1 sports betting application. According to the 8 charts, Bet365 is the most popular sports app on the App Store in the United Kingdom.

Is The Bet365 App Available 8 In Multiple Countries?

The app is currently ready for download in 36 countries (including the UK & Ireland). In addition, Bet365 8 supports a total of 9 unique payment methods.

How To Access Other Bet365 Products Via The App?

Every product published by Bet365 8 comes in its own fully-fledged app. No service is packaged away as a side-offering of another, with each branch owned 8 by Bet365 supported by a dedicated downloadable app that serves its own purpose.

You can download the following Bet365 apps for 8 iOS and Android devices via the Apple App Store and Google Play Store:

Bet365 Bingo

Bet365 Games

Bet365 Casino

Bet365 Live Casino

Bet365 Poker

Enter the 8 title of any above-mentioned app into the relevant search bar to find the product you're looking for. Download times are 8 entirely dependent on your internet connection.

Bet365 App Overall Rating

On the face of it, Bet365's mobile app is just another installation 8 in the arguably over-saturated sports betting market. However, there are many things it does considerably better than its counterparts.

We've discussed 8 each notable feature offered, waxed lyrical about the UI and showed you how simple funding your account wallet is. While 8 each service provided by Bet365's app is present

on most other reputable bookmakers such as the Betfred mobile app, few 8 feel quite as luxurious or premium.

Despite being free to download, the app looks like something you'd pay for. Where other 8 developers of betting apps focus solely on the functionality of the service, Bet365 puts immense effort into being a big-ticket 8 service as well as working as expected.

Overall, the app is a 10/10 product. It's difficult to think of areas in 8 which it falls short, whereas considering its highlights comes effortlessly. Bet365 is the place to be for anyone looking to 8 bet on sports.
