Let's explain this in a few main theses:

Even though there are multiple roulette variants, each one is the same at its core. A roulette setup consists of four main components, which are the roulette wheel, the betting table, a small ball, and a croupier. The wheel is divided into either 37 or 38 sectors depending on which version you play. These sectors are numbered 1 through 36 and then there is either a single zero slot or a single and double zero slot.

When you play roulette, the betting surface is divided into two regions. The inner area is for placing inside bets which include straight-up bets, corner bets, street bets, and more. The outer area of the betting surface is for outside bets like Odd/Even, High/Low, and Red/Black.

What's the difference between inside bets and outside bets? Well, outside bets are even-money propositions, while inside bets offer higher odds. The odds and probabilities vary from bet type to bet type. If you place aR\$1 outside bet on red, and it comes up red, then you make aR\$1 profit. If you successfully wager on a straight-up inside bet, then you earn a payout of 35:1. You can refer to the table below to find out about the different types of bets and the odds they offer.

A roulette game kicks off with the players placing their wagers on the betting surface. The croupier then closes the betting, spins the wheel, and then spins the ball on the wheel in the opposite direction. The wheel eventually comes to a halt, with the ball settling in one of the numbered and colored slots. That number and color determine the outcome. The croupier collects all of the lost bets and pays out the winning ones.

So, to summarize, a round of roulette goes as follows.

Players place their bets The croupier closes the betting The croupier launches the roulette wheel The ball hits one of the pockets The croupier collects the losing bets and pays out the winning bets

You can pretty much take all day to place your bets when you play an RNG roulette game. If, on the other hand, you play a live roulette game, you usually have around 20 seconds before the live dealer closes the betting and spins the roulette wheel.

Bayer Leverkusen empató en los minutos de descuento en Dortmund y mantuvo su racha invicta

Josip Stanisic anotó un gol en el último minuto del tiempo de descuento para que Bayer Leverkusen empatara 1-1 ante Borussia Dortmund, evitando así que el equipo de Xabi Alonso sufriera su primera derrota de la temporada.

Niclas Füllkrug había adelantado a Dortmund en el minuto 81 con un remate de zurda dentro del post izquierdo, luego de que Marcel Sabitzer le pusiera el balón con un toque suave. El balón entró en la portería después de tocar ligeramente en los guantes del portero Lukas Hradecky.

Sin embargo, Stanisic igualó para Leverkusen en el séptimo minuto de tiempo añadido, rematando la esquina de Florian Wirtz con la cabeza para extender la racha invicta del actual campeón de la Bundesliga a 45 partidos en todas las competiciones.

Leverkusen, que la semana pasada se consagró campeón de la Bundesliga con una victoria por 5-0 sobre Werder Bremen, tiene 80 puntos en 30 partidos. Dortmund es quinto con 57 puntos, a dos puntos del cuarto lugar Leipzig.

Bremen termina la racha invicta de Stuttgart en la Bundesliga

Marvin Ducksch anotó dos goles para que Werder Bremen derrotara a Stuttgart por 2-1, poniendo fin a la racha invicta de 11 partidos del visitante en la Bundesliga.

Jamie Leweling derribó a Felix Agu en el área, resultando en penal que Ducksch convirtió en la esquina inferior derecha en el minuto 28. Anotó nuevamente en el minuto 49 con un remate de izquierda después de un centro de Romano Schmid desde la derecha. Stuttgart dominó el balón y Deniz Undav, quien golpeó el poste en la primera mitad, anotó de cerca desde un centro de Chris Führich en el minuto 71, pero no fue suficiente para evitar la primera derrota del visitante en la liga desde enero.
